

App and identity management

Rippling's cloud-based directory synchronizes data and automates access to apps across your entire workforce. Identity management that's secure, flexible, and easy to use.

Create user accounts for new hires

When an employee joins, you can instantly create a user account in hundreds of apps like Gmail and Office 365.

Disable user accounts for ex-employees

When an employee leaves, Rippling automatically suspends access to all of their services and deactivates their passwords.

Manages groups, permissions, subscriptions, and more

Creating an employee's account is only half the battle. Rippling goes farther and will give your employees the right access in each system based on your policies.

Connect with 400+ third-party apps

Rippling can connect with everything from collaboration tools like Google Workspace and Office 365, to developer tools like AWS and GitHub.

Securely sign into all your apps in one click

Your employees can securely sign into hundreds of web apps in just one click, from any device—no username or password required.

Visibility and compliance

Every business has its own security controls, and Rippling is ready to help. Manage access across the company and monitor compliance with real-time reporting.

Two-factor authentication

Rippling adds an extra layer of security to your organization with support for Yubikey, DUO, and OTP.

Secure password management

For those applications that don't support SSO, Rippling provides a password manager that scales across the company. Easily share passwords by team, role, or department.

Application ecosystem

Rippling's App Shop provides customers with product reviews, detailed descriptions, and exclusive discounts for hundreds of web applications.
