

Device management

Rippling is the only system that lets you order, configure, secure, and manage both Macs and PCs in one place.

Build and buy devices

Order and ship Mac or PC computers, monitors, and more right to you—or your employee—fully configured and ready to go on day one.

View, track, and manage all your devices

No more spreadsheets. View and manage all your organization's devices in one place.

Virtual inventory (closed beta)

Rippling is your warehouse for all employee equipment. Securely store and ship devices to employees whenever and wherever they need them.

Compliance reporting

Run reports across your company's device inventory for computer level details, OS versions, security settings, and more.

Software updates

Keep your devices running smoothly and securely with automatic updates for your applications and operating systems.

Create and enforce strong security policies

Rippling protects your data through automatic hard drive encryption, strong password policy enforcement, and more.

Remotely wipe and reassign devices

Remotely wipe a terminated employee's computer and prepare it for your next hire.

Automatic onboarding and offboarding

Automatically order and preconfigure hardware for new hires, or instantly disable computers for departing employees.

Configure devices and pre-install software

Provide each employee with the right software they need to be successful on their first day by role or department.
